MUHAMMAD ASIM IQBAL

Data Science | Machine Learning | Computer Vision

2021-uam-4619@mnsuam.edu.pk | +92 320 7429422 | Nationality: Pakistani

RESEARCH PROFILE

Data Science graduate with experience in image preprocessing, convolutional neural networks, anomaly detection, and data analytics. Co-author of two journal articles on computer vision and QR-code security. Seeking graduate research opportunities in data mining and computer vision, with an interest in efficient deep learning and multimodal feature learning.

EDUCATION

BS Data Science | September 2021 - July 2025

Muhammad Nawaz Sharif University of Agriculture, Multan, Pakistan
CGPA: 3.83/4.00

PUBLICATIONS

1. Haq, E. ul, Rajwana, M. A., **Iqbal, M. A.**, & Kashif, M. (2025). Emerging Algorithms Reshaping Computer Vision: The Next Frontier in Visual Recognition. Journal of Statistics, Computing and Interdisciplinary Research, 7(2), 387-410.

2. Rehman, M. A. U., Sarfraz, Z., Raffay, A., Rao, A. A., **Iqbal, M. A.**, & Rehman, A. ur (2025). Enhancing QR Code Security Using a Hybrid Multi-Layer Steganography Encryption Model. Journal of Statistics, Computing and Interdisciplinary Research, 7(2), 377-385.

RESEARCH EXPERIENCE

Undergraduate Research Project | February - June 2025

Fingerprint-Based Blood Group Classification: A Biometric Approach to Blood Typing and Its Potential Applications in Healthcare

- Investigated fingerprint image classification and exploratory blood-group prediction using convolutional neural networks.
- Preprocessed more than 1,000 fingerprint images using OpenCV for normalization, enhancement, and filtering.
- Applied autoencoders to identify anomalous images using reconstruction error thresholds.
- Presented classification results and confusion matrices through an interactive Streamlit dashboard.

RESEARCH INTERESTS

Data mining; computer vision; efficient deep learning; multimodal feature learning; anomaly detection; scalable machine learning.

MUHAMMAD ASIM IQBAL

SELECTED PROJECTS

TV Show Popularity Analysis | October 2024 - March 2025

- Collected and cleaned data, conducted exploratory analysis, and examined viewership trends, ratings, and social media sentiment using Python.

Diabetes Prediction | 2024

- Applied preprocessing, feature selection, and supervised classification with scikit-learn; evaluated results using accuracy, precision, recall, and confusion matrices.

House Price Prediction | 2024

- Built regression models using property attributes; applied feature engineering, outlier treatment, and hyperparameter tuning.

SELECTED PROFESSIONAL EXPERIENCE

Studentship | MNS University of Agriculture, Multan
March 2023 - February 2025

- Supported faculty and staff with hardware, software, and connectivity troubleshooting.
- Maintained ERP workflows for enrollment, course management, and examination results.

Accounts and Finance Officer | HMD Poultry Solutions
November 2024 - August 2025

- Managed billing, payments, expense tracking, and financial records.
- Created invoices, vouchers, and reporting dashboards using Google Sheets and Google Apps Script.

TECHNICAL SKILLS

Programming: Python, C, C++, JavaScript, HTML, CSS
Machine learning: scikit-learn, TensorFlow, Keras, CNNs, autoencoders
Data analysis: Pandas, NumPy, Matplotlib, Seaborn, Plotly, Power BI
Computer vision: OpenCV, image preprocessing and classification
Applications and databases: Flask, Streamlit, MySQL, SQLite
Tools: Jupyter Notebook, Google Colab, Kaggle, Git, VS Code, Google Apps Script

SELECTED COURSES AND CERTIFICATES

Google Advanced Data Analytics Capstone
Foundations of Data Science
Introduction to Relational Database and SQL
Prepare, Clean, Transform, and Load Data using Power BI
Simple Linear Regression for the Absolute Beginner
System Administration and IT Infrastructure Services
